Subject: ATSDR summary for USVI site

Chris,

As requested, here is the information we discussed this morning.

Dr. Michelle Watters, Medical Officer, ATSDR, DCHI consulted with the attending physician, Dr. Luis Amaro, yesterday, 3/22/15. Dr. Amaro had specific treatment questions Dr. Watters was not able to answer. Dr. Watters advised Dr. Amaro to consult with the Jacksonville, FL Poison Control Center (PPC), the PPC covering the USVI, as the PPC is staffed with physicians who are medical toxicologists and who could provide answers to Dr. Amaro's specific questions regarding treatment. Dr. Amaro advised Dr. Watters he is in daily contact with the Jacksonville, FL PPC and will request assistance from the PPC to answer the treatment questions.

Dr. Michelle Watters is available to assist with other health and safety questions, if needed. Please contact Elena Vaouli to request assistance.

Also, the ATSDR Emergency Response Team is available to assist with data review and make recommendations based on public health hazards associated with contamination in a residential property. We can also request ATSDR Emergency Response staff assist on site, if needed. Again, please contact Elena Vaouli to request assistance from the ATSDR Emergency Response Team.

I will be out of the office beginning tomorrow, returning to the office on Wednesday, April 1, 2015. Elena will be acting Regional Director and the main POC for my office while I am away.

Elena's contact is as follows:

Phone: 732-321-4465

Email: vaouli.elena@epa.gov

Thank you,

Leah Graziano, R.S.

Regional Director, Region 2

Division of Community Health Investigations/Eastern Branch

Agency for Toxic Substances and Disease Registry (ATSDR)

2890 Woodbridge Ave

Edison, NJ 08837

Phone: 732-906-6932
